What you pay for, and how it works.

Every service is a block with a clear goal. You always know how many lessons you get, what happens between them, and what it costs. No hourly charges, and no hidden extras.

How it starts

1 A free 20-minute call

We agree the goal and the service. No commitment.

2 The 2-week start, €330

A start test, 4 lessons, 4 marked worksheets, then a call with you.

3 The rest of the block

Only if you want to go on. The block fee already includes the €330.

Included in every block

Live 60-minute lessons
One to one on Zoom or Google Meet, with a shared whiteboard. English, Italian or Croatian.

Notes after every lesson
A PDF of the lesson, so nothing gets lost.

A start test and an end test
The same kind of test at both ends, marked like the real exam. You get both results.

Two calls with you
20 minutes each: after the first 2 weeks, and at the end of the block.

A worksheet after every lesson
Made for that lesson. Hand it in a day before the next lesson and it comes back marked.

The personal traps list
The student's repeated slips, updated after every worksheet and practised until they stop.

A written report every 4 weeks
What improved, what still needs work, and the plan. The last one has the end test result.

Questions between lessons
By WhatsApp, for the student or for you. Answered within one working day.

Lessons

- Weeks are counted without school holidays.
- Lessons can move within the block, up to 4 a week before a mock.
- Rescheduling is free with 24 hours' notice. Later than that, the lesson counts as used.
- If I cancel a lesson, it is always made up.
- Unused lessons expire at the end of the block. If the student is ill for a long time, we pause it.

Paying

- The 2-week start is paid before the first lesson.
- Stop after the 2-week start and you pay nothing more.
- The rest is paid before week 3, or half before week 3 and half at the halfway point.
- An invoice for every payment. Payment by bank transfer.

Not included: exam and test fees (SAT, Bocconi), the SAT Reading and Writing section, writing any part of an IA (the IA stays the student's own work), and lessons beyond the block's total, which are €95 each.

IB Maths and IB Physics

One block is one school semester, with its own goal. Book one semester at a time, for one year or for the whole Diploma. For Maths AA or AI and Physics, at SL or HL.

The blocks

Block	Lessons	Goal in DP1	Goal in DP2	Fee
Semester 1 1 Sep to 20 Dec	**2 a week** in school weeks	A strong start, on the right course and level	Gaps from DP1 closed, IA draft in, ready for mocks	**€2,000**
Semester 2 10 Jan to 30 Apr	**2 a week** in school weeks	Steady test grades, IA topic chosen	Strong mocks, IA finished, ready for May	**€2,000**
Summer Jun to Aug · 6 weeks	**12**	Year 2 Ready: Year 1 gaps closed before DP2	No block: the exams are over	**€1,000**

What one semester includes

Semester 1 or 2, €2,000

Live lessons, 60 minutes	**2 a week**
Worksheets, marked	**1 a lesson**
Lesson notes	**1 a lesson**
Start test and end test	**2**
Written reports	**every 4 weeks**
Calls with you	**2**
IA drafts read, with feedback	**up to 2**
WhatsApp questions	**Included**

Good to know

- Lessons run in school weeks only. Before you pay, we count them on your school's calendar. Semester 1 with a one-week half term is 30 lessons.
- The €330 start counts towards the semester. After it, you pay €1,670.
- Starting later? After the 2-week start, each lesson left is €70, never more than €2,000.
- Taking Maths and Physics? The second subject is €1,600 a semester.
- After 30 April, DP2 students can book a Sprint for the May exams.
- Lessons follow what your school is teaching that week.

The IA, inside every semester

Choosing the topic, checking the maths is right for the course, and written feedback on up to 2 drafts a semester, criterion by criterion. I never write or edit any part of it. The IA stays the student's own work.

"Alex helped me go from a 3 in IB Maths AA HL to a confident 6 by finals. The way he explains things finally clicked."

Carlo · IB Maths AA HL student

SAT Math

8 weeks before your test date. At the start we agree a target Math score, such as 700+ or 750+. This covers the Math section only, which is half of the 1600.

€1,350

The whole block: 8 weeks, 16 lessons

Includes the €330 start. After it, you pay €1,020.

What the block includes

Live lessons, 60 minutes	16
Worksheets, marked	16
Lesson notes	16
Official practice tests, reviewed	3
Desmos calculator training	Included
Written reports	2
Calls with you	2
WhatsApp questions	Included

Good to know

- Already sat the SAT? We start from your official score report instead of the first practice test. Same block, same fee.
- The practice tests are the official ones, in College Board's Bluebook app.
- Less than 6 weeks to your test date? Then it is a sprint, at €95 a lesson.
- Not included: the College Board test fee, and the Reading and Writing section.

Week by week

Weeks	What happens	Lessons
1 and 2 The 2-week start	Practice test 1. We find where the marks go: content, speed, or mistakes in Module 1. Then a call with you and the plan.	4
3 to 5 The content	The topics that cost the most marks, and Desmos for the questions it solves faster. Practice test 2 at the end of week 5.	6
6 to 8 Speed and accuracy	Timing, accuracy in Module 1, and never leaving a blank. Practice test 3 in week 8, then the final report and a call with you.	6
Test day	You sit the real test, with a plan for every module.	Total 16

"SAT math score went up by 120 points. Every lesson is focused, efficient and structured. No wasted time."

Jacopo · SAT Math student

Bocconi test

10 weeks before your test date. At the start we agree a target score. The focus is maths and numerical reasoning, which are 30 of the 50 questions, plus pacing for the whole test.

€1,650

The whole block: 10 weeks, 20 lessons

Includes the €330 start. After it, you pay €1,320.

What the block includes

Live lessons, 60 minutes	20
Worksheets, marked	20
Lesson notes	20
Start test: the timed maths drill	1
Timed practice tests, reviewed	2
Written reports	3
Calls with you	2
WhatsApp questions	Included

Good to know

- Winter Session: the last test date is 21 January 2027. To get the full 10 weeks, start in early November.
- Applying abroad too? Bocconi accepts the SAT, so we check which test suits you better.
- Less than 6 weeks to your test date? Then it is a sprint, at €95 a lesson.
- Not included: the Bocconi test fee, which is €60 per attempt.

Week by week

Weeks	What happens	Lessons
1 and 2 The 2-week start	The maths drill, timed. We find which topics and which habits cost marks. Then a call with you and the plan.	4
3 to 5 The content	The topics that cost the most marks, such as algebra, functions or probability. Practice test 1 at the end of week 5.	6
6 to 8 Speed	About 90 seconds a question, which questions to skip, and when a guess pays.	6
9 and 10 Test ready	Practice test 2, the last weak spots, and a plan for test day. Then the final report and a call with you.	4
Test day	You sit the real test, with a plan for the 75 minutes.	Total 20

Extras, and all fees at a glance

IA Coach on its own — €650

For students who aren't in an IB block. For the Maths or the Physics IA, up to your school's deadline.

- Live lessons, 60 minutes 6
- Drafts read, with written feedback 2
- WhatsApp questions ..... Included

Topic, research question, the maths and feedback on each criterion. The IA stays the student's work.

Sprint — €95 a lesson

For any deadline less than 6 weeks away: a test, a mock, final exams, an SAT or Bocconi date, or a first year university maths exam.

- Live lesson, 60 minutes 1
- Worksheet, marked 1
- Lesson notes 1

A sprint costs more per lesson than a block, because everything has to fit into a short time.

All fees

Service	Length	Lessons	Fee
2-week start, any service	2 weeks	4	**€330**
IB Maths or Physics: semester 1	1 Sep to 20 Dec	2 a week	**€2,000**
IB Maths or Physics: semester 2	10 Jan to 30 Apr	2 a week	**€2,000**
IB Summer: Year 2 Ready (DP1 only)	6 weeks	12	**€1,000**
Second IB subject, same semester	per semester	2 a week	**€1,600**
SAT Math	8 weeks	16	**€1,350**
Bocconi test	10 weeks	20	**€1,650**
IA Coach on its own	to your deadline	6 + 2 drafts	**€650**
Sprint	under 6 weeks	per lesson	**€95**
Extra lesson, beyond a block	any time	1	**€95**

The 2-week start counts towards the block, so trying first never costs extra. Starting an IB semester late? After the 2-week start, each lesson left is €70, never more than €2,000.

If anything here isn't clear, ask me. It's my job to make it clear before you pay anything.

I work with a small number of families each semester, so places are limited.
